Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 27 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A largely dry start, becoming wet and windy.

Today:
A cloudy start, with patchy rain affecting most parts at times. Rain becomes heavier and more persistent through the afternoon, as it moves across the region from the south west. Mild, with light winds that strengthen later. Maximum temperature 12 deg C (54 deg F).

Tonight:
A wet evening as the band of rain continues to move across the region. This should ease overnight, becoming dry for most by the early hours. Windy, especially along coasts. Minimum temperature 7 deg C (45 deg F).

Thursday:
A largely dry, but often cloudy day, with sunny spells possible for eastern areas. Scattered showers possible at times, ahead of further rain through the evening. Breezy, but feeling mild. Maximum temperature 12 deg C (54 deg F).

Outlook for Friday to Sunday:
Rain to start Friday, with a risk of gales, becoming drier later. Further rain on Saturday, possibly wintry on hills. A frosty start on Sunday before rain arrives later.
